

## SIGNOLIT® SI 71 Inkjet Artist Canvas matt

<b>Description</b>	<i>Material</i>	- Canvas (100% cotton textile) coated on one side, with irregular structured surface
	<i>Coating</i>	- microporous coating
	<i>Properties</i>	- bright white coating, - brilliant colour reproduction, - reduced reflections on the printed surface, - natural coloured textile backing, - especially suitable for attachment on stentering frames (elastic coating)
	<i>Application</i>	- for indoor use
	<i>Durability</i>	- for medium-term use
	<i>Printing systems</i> <i>Inks</i>	- bubblejet and piezo, - dye-based and pigmented inks
<b>Examples of use</b>	<i>Indoor</i>	- art prints, posters, exhibition works, stage decoration
<b>Surface protection</b>	An additional protection of the printed surface is required when it is subject to abrasion, sweat or other mechanical influences. In this case we recommend to protect the print with a suitable clear varnish or a liquid lamination product. When using dye inks, the printed image must be protected with a clear varnish or a liquid lamination product in order to improve the colour fastness.	
<b>Technical data</b>	<i>Base material</i>	100% cotton textile, 2:2 weave
	<i>Thickness</i>	~ 460 - 515µm
	<i>Grammage</i>	~ 350 - 380g/m <sup>2</sup>
	<i>Dimensions</i>	610 mm x 15 m. 914 mm x 15 m. 1067 mm x 15 m. 1118 mm x 15 m. 1270 mm x 15 m. 1370 mm x 15 m. 1520 mm x 15 m.
<b>Note</b>	Due to the natural components of the cotton textile in the grey fabric the surface finish can slightly vary. Minor colour deviations can also occur in different production lots.  A too high air humidity can affect the flatness of the product. This could lead to malfunctions in the printing process and thus alter the printed image. For this reason SI 71 should only be removed from its original packing directly before printing.	
<b>Storage</b>	After printing the remaining roll must be removed from the plotter and stored in its closed original packing in a cool and dry environment.	
<b>Disposal</b>	The left-over pieces can be treated as industrial waste and incinerated. Nevertheless, it is absolutely necessary to follow the local regulations in force in the waste treatment plants.
